Is it right?

Is it right that a property owner should cost \$4.20 to let a dealer make 50 cents? A dealer makes 50 cents more on fourteen gallons of ready-for-use paint, at \$1.50 per gallon, than our agent does on eight gallons of L. and M. paint and six gallons of linseed oil, which make fourteen gallons of the best paint in the world, at \$1.20 per gallon; the property owner loses just \$4.20. Is it right?

It only requires 4 gallons of L. and M. and 3 gallons linseed oil to paint a moderate sized house.
